

Brow Lamination Before and After Care

Prior to the Brow Lamination treatment, please observe the following:

- Come to your appointment without any makeup (clean face).

After-care instructions for Laser Hair Removal:

- Do not wet your eyebrows for 24-48 hours.
- Avoid touching the brow area at the risk of transferring oils.
- Do not apply makeup to the brows for 24 hours post-treatment.
- Do not apply Retin A, aha or exfoliate the brow 72 hours before or after the treatment.
- No self-tanner products should be used on the face for at least 48 hours post-treatment.
- Apply Lacquer Brow Balm (We suggest before bed). This lengthens the results and conditions their brows.
- It is normal for them to feel slightly dry and the brow balm will help moisten them.
- Comb the hairs into place each day.

If you are concerned about any reaction, please call XO Betty and contact your healthcare provider immediately.
